TECHNICAL DATA SHEET

PRODUCT DESCRIPTION	**PRINTED SOLID BLUE (300U) - WRAPPERS**
CUSTOMER	**Generic**

PRODUCT CONSTRUCTION	
Material	**Weight**
Virgin Tissue Paper	17gsm
Ink	2gsm
Tolerance – Material (gsm)	± 2gsm
Tolerance – Specifications (mm)	± 5mm
Total Grammage	**19gsm**

Description	Specifications	Product Code	QTY / Pack	Gross Weight (per 1,000)
Wrapper #9	200mm (W) x 225mm (L)	GENEE40166	20,000	0.85kg
Wrapper #10	225mm (W) x 250mm (L)	GENEE40167	20,000	1.07kg
Wrapper #11	250mm (W) x 275mm (L)	GENEE40168	10,000	1.31kg
Wrapper #12	275mm (W) x 300mm (L)	GENEE40169	10,000	1.57kg

COLOUR	Pantone	COLOUR	Pantone
BLUE	300U		

COMPLIANCE	1. All raw material / tissue paper used in this product is FSC certified (FSC Mix Certificate SGSCH-COC-600096) and is compliant with FDA and EU Regulations for food contact applications. 2. Only 100% virgin materials are used. 3. The product is 100% recyclable. 4. The product is manufactured in a BRC accredited plant with the requisite identification and traceability to source.
PACKAGING	1. Finished product is bailed and wrapped in polyethylene. 2. Bales are placed in conjunction with a pallet protector on a pallet. 3. Pallets are stretched wrapped and strapped to secure products for transportation.
STORAGE	1. Store in dry ventilated areas out of direct sunlight. 2. Ideal storage temperature is between 10 – 25°C. 3. Finished products should be used within ONE year of manufacture and should be stored in demarcated areas. 4. Stored finished products should be monitored to ensure that undesirable environmental conditions do not affect the quality of the product (e.g. not stored with any hazardous materials / chemicals, odor, taint and of malicious intervention).
