

TECHNICAL DATA SHEET

Customer	Product Description	Product code	Bar Code
GENERIC	CAPE PEARS CLASS 1 EXPORT – 1KG	GENEE50198	N/A
PRODUCT CONSTRUCTION		BAG SPECIFICATION	
Material	Weight	Indicative	
Low Density Polyethylene (LDPE)	23.05gsm	Bag Width	205mm
Ink	2gsm	Bag Length	390mm
		Lip Size	40mm
		Gusset Size	N/A
		Seal Type	Side Seal
		Punches / Vents	See bag layout attached
Total Grammage	25.05gsm	Tolerance	± 10%
Gross Weight KG (per 1,000)	4.42kg	Number of Bags / Pack	1,000

COLOUR	Pantone	COLOUR	Pantone
WHITE		RED	179C
BLUE	REFLEX BLUE	GREEN	3415C
ORANGE	1235C		
BLACK			

COMPLIANCE	1. All raw material used in this product is compliant with FDA and EU Regulations for food contact applications. 2. Only 100% virgin materials are used. 3. The product can be recycled. 4. The product is manufactured in a BRC accredited plant with the requisite identification and traceability to source.
PACKAGING	1. Finished product is baled and wrapped in polyethylene. 2. Bales are placed in conjunction with a pallet protector on a pallet. 3. Pallets are stretched wrapped and strapped to secure products for transportation.
STORAGE	1. Store in dry ventilated areas out of direct sunlight. 2. Ideal storage temperature is between 10 – 25°C. 3. Finished products should be used within ONE year of manufacture and should be stored in demarcated areas. 4. Stored finished products should be monitored to ensure that undesirable environmental conditions do not affect the quality of the product (e.g. not stored with any hazardous materials / chemicals, odor, taint and of malicious intervention).

This specification has been designed and produced specifically for the product described. This specification has not been tested for any other application and thus may not be used for the packing of any other product.
