DECLARATION OF CONFORMITY – FOOD SAFETY

Corruseal Corrugated Group manufactures corrugated cartons for a variety of markets. Raw materials used are acquired through various local and international paper and raw material suppliers. All papers are inspected to meet all site requirements for food safety.

Corruseal Group sites producing food contact packaging are ISO 9001:2015 and FSSC 22000 Certified.

Corruseal Corrugated hereby declares that based on the certificates received from all material suppliers, the packaging materials produced by the Corruseal Group for packaging applications are compliant and conform with the following standards listed below:

- United States Food and Drug Administration (FDA) Code of federal regulation Part 176.170 (Contact with aqueous and Fatty foods) and FDA 176.180 (contact with Dry food).
- DIN EN 71 part 3 – Safety of Toys, Migration of certain elements. The products are all tested for metals lead, cadmium, mercury, chromium. Levels are below the permissible limits.
- European Parliament and Council Directive 94/62/EC on Packaging and packaging Waste. The total metals lead, Cadmium, mercury and chromium were determined to be less than the permissible limits.

- European Parliament and Council Directive 2002/95/EC on restriction of the use of certain hazardous substances (RoHS) in electrical and electronic equipment. The total metals lead, Cadmium, mercury and chromium were determined to be less than the permissible limits.
 - Regulation 1907/2006 of the European Parliament and Council (REACH). The raw materials used in the manufacture of the product do not need to be registered under the current REACH regulation. The product does not contain any substances of very high concern (SVHC) in a concentration which would result in the need for registration of the product as a preparation/article.
 - The products comply with the requirements of the Good Manufacturing Practice Commission Regulation EC 2023/2006.
 - The products comply with the requirements of Framework Regulation 1935/2004/EC.
 - The product is manufactured solely from paper and therefore complies with the Commission regulation (EU) No 10/2011 on Plastic materials and articles intended to come into contact with food.
 - The products comply with EU Regulations established for ceramics (2005/31/EC) , regenerated Cellulose film (2007/42/EC) as well as active and intelligent materials (2009/450/EC).
 - All products comply to the German Cardboard & paper MOSH / MOAH limits stated below for cardboard and paper : MOAH : 6mg/kg and MOSH : 24mg/kg
 - All food contact packaging complies with Regulation (EU) 2025/40 (Packaging and Packaging Waste Regulation – PPWR) and applicable EU legislation, and is free from intentionally added per- and polyfluoroalkyl substances (PFAS) in accordance with Article 5 requirements.
 - All corrugated packaging does not present a risk of radioactive contamination and complies with applicable legislation and guidance relating to radionuclide contamination in food contact materials.
- 

- All printing inks and printed layers applied to the packaging materials supplied under this declaration comply with the requirements of the Swiss Ordinance on Materials and Articles Intended to Come into Contact with Food (SR 817.023.21), including the latest amendments.
- The packaging supplied also complies to the following and none are added intentionally :
 - Free of 4- Methyl benzophenone
 - Free of ITX (2-isopropyl Thioxanthone)
 - Michler's ketone is below 0.0016 mg/dm²
 - DEAB is below 0.0016 mg/dm²
 - Free of DIBP
 - PAHs are less than 0.0016 mg/dm²
 - PVC : No PVC or its derivatives are used
 - Free of Triclosan
 - Free of BADGE, BFDGE and NOGE
 - Compliance to limits for Heavy metals
 - PFOS Free
 - PFOA Free
 - Free of Phthalates
 - Free from mineral oils
 - Oxo degradable additives are not used
 - BPA Free
 - PFA Free

This declaration is valid for 2 years.
